## 6 Course Completion Secrets

For the Job search Master Class members that commit to diving right in!

### #1: Schedule To Make It Real

Schedule an hour a day (or several hours in chunks throughout the week) to go through the course. Make yourself, your career, your future income — and this course a priority. You'll be glad you did! (If you don't schedule the time in advance, I promise you, it will never happen.)

### #2: COMPLETE EVERY SINGLE CHEAT SHEET

There will be a cheat sheet for nearly every training video lesson. My cheat sheets are not “just a little added support” but are 100% part of each training video – that means don't skip them! Your ideas, insights, and action items will come alive with these cheat sheets if you follow my lead, so take them very seriously. Think of them as required work for the course.

### #3: PARTICIPATE IN THE PRIVATE FACEBOOK GROUP

The Facebook group designed for JOB SEARCH MASTER CLASS students is a community built around your participation. Sharing your wins, your challenges, and your questions in a supportive community of like-minded action-takers will ensure you are successful right from the start. Don't be shy to post, comment, and really engage frequently in the group.

### #4: DON'T RUSH

Go at your own pace! You have unlimited access to the members' area, the interview role-play technology. I designed this course so that you could take action and see big wins right out of the gate. But you need to treat JOB SEARCH MASTER CLASS as your own unique experience.

# Solution

## **#5: DETERMINE THE WAY YOU LEARN BEST**

If you're a pen-to-paper learner, be sure to print out the cheat sheets and create a binder to help you work through the material. If you learn best visually, watch the videos a few times each. My goal is to help you get results quickly. So do what it takes to get the most of your new program!

## **#6: COMMIT TO TAKING ACTION STEPS EACH WEEK**

You'll accelerate your time to achieve results AND feel better about your job search by taking action regularly. Nothing is more motivating than getting something accomplished. This material will be new to you, but don't let that stop you from taking action on what you're learning and create quick wins to celebrate along the way! You've got this! In as little as 30 days, you can see amazing results. But you must, must take action.
